why did you write these files?

Well I (SkibidiCoffee) joined a old YouTube clone website called VidLii on 2023/05/25 because it had funny offensive memes on it and I met some weird people and became friends with them as I was a retarded 13 almost 14yearold edgelord.

People like xenometer/sentinel and trannykiller/kansen which this book is about. But later on I realized they were bad news, Pedophiles and degenerates who will just drag me down so I cut them off. But after I did it,

They decided to make impersonation accounts of me on VidLii to destroy my reputation and then also just a few days ago as of writing, they raided my server with child porn and gore as revenge for me leaving them. And I decided after that. Something had to done to get them punished for good.

So I and a few other buddies who hate them too decided to compile everything we have against them and put it in a giant book to destroy their reputation and maybe even get the police to arrest them for their crimes

evidence against kansen/trannykiller/infektion:

*Proof that hes a pedophile/lolicon

Kans3n has been banned for the following reasons:
Promotion of pedophilia.
Ban evasion.

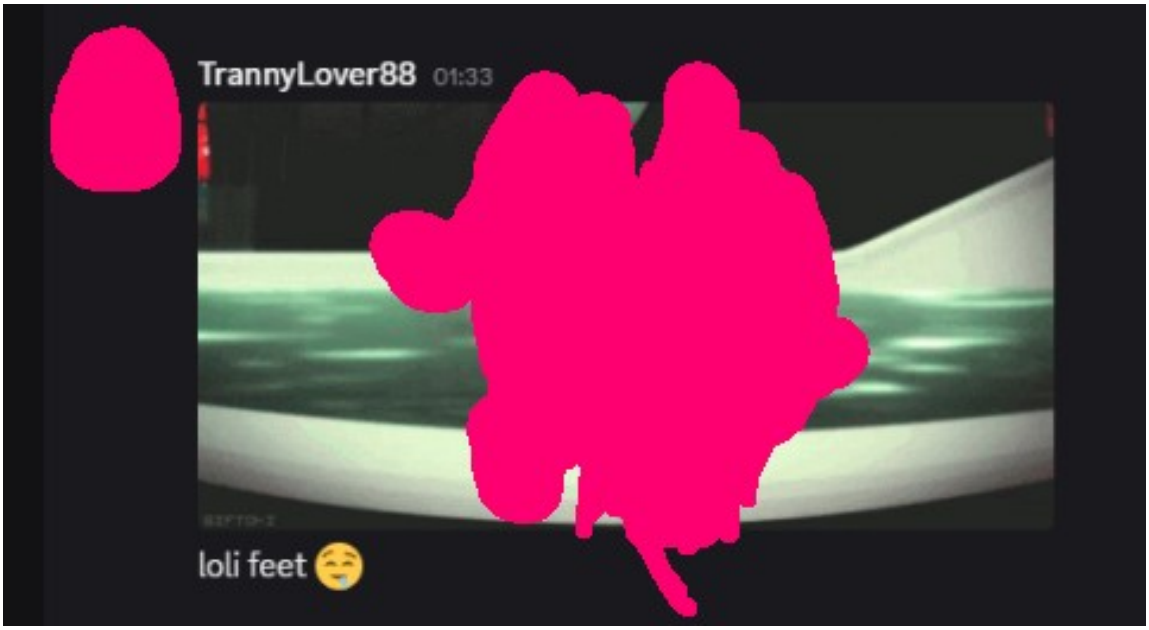
“we all love cunny in dis bitch” - Kansen



*bikini underaged anime girl with her feet out in a bathtub

*kansen defending lolicon

anti lolicon puritans are literally retarded
like its ok if u don't personally like it urself
but supporting censorship because lolicon "offends' you makes you no different from a commie/authoritarian
Kan$en (感染)
anti lolicon puritans are literally retarded
they might say some shit like "lolicon normalizes pedophillia and child sexual assault!!"
but how is that diffrent from the whole "video games cause violence" argument
which has been debunked a long fucking time ago (edited)

difference is that. Porn is very addictive compared to violent videogames and its proven in countries like japan that people watching porn like woman being touched on trains promotes it more IRL. And most of the people into loli eventually get intentions of doing it irl meanwhile most people can play a shooting game and not wanna kill irl. Its different scenarios. And also kansens intention behind this post was to justify his addiction not argue philosophically unbiasedly

Now I got all the evidence I could get for kansen being into loli but now I can go into other stuff less immoral but still weird like his obsession with incest in this page.

Source: https://www.bitchute.com/channel/mDvajRPFgrq
backup: https://archive.md/zkdPI

There used to be way more evidence for the incest but his vidlii channel got deleted and internet archive didn’t capture that.

Kansen has responded to some of these arguments before but the responses are kinda shit.

“its just a joke!”

okay but he constantly talks about it even in non joking contexts and argues to justify his addiction so its very clear its just him trying to justify everything he said. Most people don’t joke about this stuff and even if they do they include very obvious context it is and they rarely do it and they actually make it funny not cringe. And they don’t debate philosophically on why its okay.

Like for example I sometimes make racist jokes but I constantly denounce racism in serious contexts and never defend it in a political debate and make it very clear its a joke. (unless you count the times a few years ago I was an edgelord but I changed now)

“loli isnt the same as pedophilia!”
well you can argue its less immoral because loli doesn’t harm others but its still by definition pedophilia. You’re still gooning to children doesn’t matter if its drawings or real.

Same way if I wack off to hentai of 40yearold milfs. I still like milfs. It doesn’t matter that its fake milfs. Same way If I wack off to hentai of black woman getting fucked by white men. I still like the idea of white dudes fucking black chicks and get off from it.
It doesn’t change anything that its a drawing or real people.

Also loli is pre-pubscent kids so you cant say it isnt pedophilia for that reason. No kansen likes actual little kids like ive proven in pages above not just a 17 or 16yearold mf whos legally a kid. No toddlers and kids below 12.

kansen made a “skibidicoffee expose” video here https://skibidiliii.top/watch?v=H670umxes_1

literally all he did in the video was having screenshots of me being retarded in the past trying to cope with being friends with him and justify it. As if people cant improve and change their minds on stuff overtime.

Meanwhile I have actual evidence of him being a pedophile and literally committing a sex crime that could get him locked up for years. And he argued also that he and sentinel weren’t cp distributors but ignored everything else I said and used his classic 2common defenses which I debunked in the pages above.

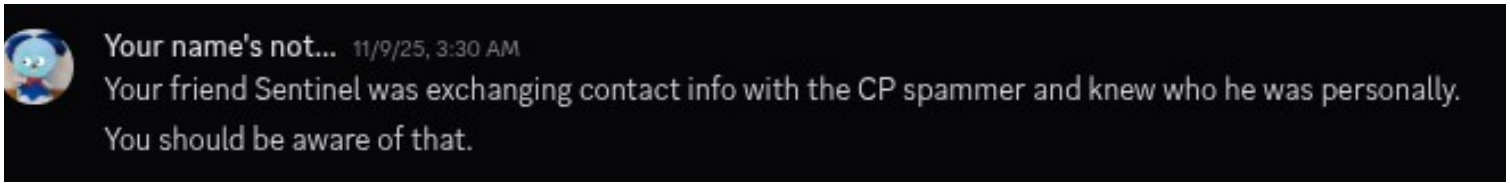
And did red herrings by pointing out insignificant parts. like me claiming xenometer was brazilian instead of attacking my actual argument. And then he whined about how I destroyed his friendship by leaving him even though I clearly warned him over along time to repent from his loli shit and he ignored and I didn’t even make a video on kansen or tried to raid his shit until he tried impersonating me on vidlii to ruin my reputation. All I did was defending myself from him not offending. He started the war. Literally it was just using red herrings by pointing small issues with my video and then whining about how I left him when I clearly warned him to stop everything for months.

Evidence against sentinel/xenometer /infernus/nemesis

The so called “german slavic” neonazi with a brazilian ip address

1nfernus has been banned for the following reasons:
Uploading or linking to pornography or sexually explicit content.
Uploading or linking to child abuse material.

source: https://www.vidlii.com/user/1nfernus
how do we know its xenometer?
Well if you click on https://www.vidlii.com/user/xenometerofficial it redirects to the same infernus page so its him just rebranding his channel.
And the normal xenometer account is also banned off vidlii although without a specified reason.
And many people on vidlii like shingo and bestbrogamershow and johnnylockhart have witness testimony that xenometer uploaded cp to vidlii in october to november 2023.



Your name's not... 11/9/25, 3:30 AM
Your friend Sentinel was exchanging contact info with the CP spammer and knew who he was personally.
You should be aware of that.

this is the vidlii developer/programmer (bf3k) saying xenometer/sentinel was friends with a cp spammer. And knew about it because he checked the dms of the spammer to see if he sent any spam Dms to anyone on vidlii for a virus or whatever and he found out sentinel initiating a conversation with him and talking about a matrix chat with him.

***promoting 764 unironically.**
a pedophile neonazi satanic grooming cult that manipulates kids into becoming trans and also self harming and killing animals
geniunely fucked up that hes associated with that shit especially with my next point. Which btw 764 is classified as a terriost organization in the united states so xenometer can literally get arrested for this on top of making a dd edit proving he has possession of CP

I don’t have photographic evidence for this but xenometer has been grooming young kids into nazism and loli. I suspect he groomed starblitz/ytpmaker when he was just 12 or 11 and lyioz/killalocalpedophile/hdgore at like 10.

it seems star has escaped but kalp who knows what happened to him now and theres prob many other kids like star and kalp that xenometer attempted to groom into loli or nazism. He was talking to 13- kids about racism and mass shootings and porn and him being in 764 makes it even more concerning.

Luckily nothing happened to me because I was smart enough for him to avoid discussing his darkest compared to other people (all these screenshots I have are from other people talking to him because he trusted them more then me)

I left the telegram because no action was taken even when xeno returned to the telegram as i tried bringing to his attention, faggot was more concerned about his discord ban than a literal piece of shit thinking posting animal gore videos is cool, it would be very funny if that shit happened to you mate. Watching you suffer the same fate would be very hilarious. I don't support people who do nothing about freaks like that nor do i wanna be associated.
SaintFox (2 years ago)
I didn't screenshot the gore because i'm not wanting to see that shit it angers me, what angers me more is not seeing that shit deleted and the poster banned and reported. You think animal abuse is ok? Get fucked.
SaintFox (2 years ago)
Xenometer did nothing to ban a animal abuse/gore jewfag poster in his Telegram group and his mates get mad at me for reporting it. Maybe do your job and not let in degenerate freaks that get off to innocent animals being put in a blender. You sir are fucking filth and your supporters for thinking animal abuse is ok. Fuck you.

When i join Telegram groups i come to meet likeminded people and chat about interesting shit, not see some ugly degenerate unloved freak liberal larper kike sharing animal gore because they think they're somehow edgy and hardcore, irl you're nothing more than a jew parasite goblin that would be beaten to death irl since no one would want you around animals since you'd probably record yourself abuseing them and share online. Burn in hell.

@NexusTerminus Dude, the extreme right movement is not the population that chooses its destiny, it is not the violence that will choose its destiny, it is not the propagandas, protests or anything like that, it is the FAR-RIGHT political party. You just need to have the right mind and the population wants to choose between anguish or wealth. I make these videos to gain a population on this platform, and outside of others too, and I'm not shocked by what you call me. I just went in there because I thought you were one of those lost people who see a video and believe all the shit they say. Boy, was I wrong. I've fell off for obvious bait.

Kansen I know you wish you had my fat bwc inside you but thats no excuse to cheat on your transgender girlfriend. Instead be loyal to your wife even if she has a small dick

Xeno and trannys response

they will probably respond to this by pointing out random stuff I did that even if it has nothing to do with this files and is way less bad then the allegations they have about me or they will just cry like a bitch and call me a moralfag sandnigger lolcow instead of responding or they will just attempt to correct small errors without correcting the whole point or they will just say my screenshots are faked or “innocent until proven guilty” they wont actually respond fr. But I already proved they are pedophiles so it doesn’t matter what they say about me. Like they use the argument of me being a hypocrite lolcow as if thats somehow worse and more evil then being a literal pedophile and working with the 764 and grooming children

conclusion:

xenometer/sentinel and trannykiller/kansen are retarded pedophile neonazi larper faggots who are also furries. And xenometer literally admitted to many crimes and is part of a grooming cult (764) and was proven to already groom 2kids. And is also a transgender despite his political beliefs being against it. And also xenometer is brown and has ip detected in brazil so hes not even white/germanslavic either like he claimed. I geniunely hope xenometer/sentinel along with trannykiller/kansen the police arrests them. Same with slyni and 8pan because they are cp distributors. They should rot in jail for years for everything they did. And hopefully the police sees the files and does something against them.
